Third Party Integrations

This document lists current integrations TransitionManager maintains with leading, third-party software. Integrations with TransitionManager improve efficiency and functionality, and allow for seamless data flow, improved automation, and streamlined processes.

Provider	Product	Description	Function			
			ETL	Discovery	Planning & Analysis	Execution
Red Hat	Ansible Automation Platform	Launch and monitor job templates				✓
Amazon AWS	EC2 - Elastic Cloud Compute	Sync Inventory to TM, Manage instance properties and configuration.	✓	✓		
Atlassian	Jira	Sync Application Inventory to TransitionManager.	✓	✓		
Atos/Eviden	Cloudamize	Sync Inventory to TransitionManager, validate and create infrastructure dependencies, instance right-sizing	✓	✓		
Device42	Discovery	Sync Inventory to TransitionManager, validate and create infrastructure dependencies & Netflow	✓	✓		
EcoSys	EcoSys	Sync Database and Application Inventory to TM	✓	✓		
Flexera	CloudScape	Sync Inventory to TM, manage instance properties and configuration, FW rule out, dependency validation and mapping	✓	✓		
Microsoft	Office 365	Sync User, Mailbox and other Office365 assets to TransitionManager	✓	✓		
Microsoft	System Center VM Manager (SCVMM)	Sync Inventory to TransitionManager	✓	✓		
Microfocus	UCMDB	CMDB Asset Inventory and Relationships	✓	✓		
ModelizeIT	ModelizeIT	Sync Inventory to TransitionManager, validate and create infrastructure dependencies, instance right-sizing.	✓	✓		
nMap	nMap	Inspect devices on the network and perform basic scanning tasks	✓	✓		
Robware	RVTools	Comprehensive Inventory Import to TransitionManager	✓	✓		
Rocksolid	Rock Solid SQL	Sync inventory from RockSolid to TransitionManager	✓	✓		
ServiceNow	CMDB/Discovery	CMDB Asset Inventory and Relationships. Comprehensive Inventory Import to TransitionManager	✓	✓		
ServiceNow	Snow Mirror	Similar to ServiceNow, uses SnowMirror DB	✓	✓		
System Architect	System Architect	Sync Inventory to TransitionManager	✓	✓		
VMware	vCenter	Discovery and interaction to VMware vCenter. Includes Inventory as well as Interactions	✓	✓		✓
VMware	vRNI	Dependency creation, Traffic profiling and firewall rule evaluations, NetFlow	✓	✓		

Provider	Product	Description	Function			
			ETL	Discovery	Planning & Analysis	Execution
Amazon AWS	MGN - Application Migration Services	Migrate Workloads to AWS via MGN including Post Launch Actions	✓	✓		✓
Infoblox	DNS/IPAM	Perform IP/DHCP/DNS management on the Infoblox platform	✓	✓		✓
Microsoft	Azure Migrate	Inventory discovery and VMware ESX + Hyper V to Azure VM conversions (Agentless)	✓	✓		✓
Microsoft	Azure Site Recovery	Supported Windows and Linux distributions physical to Azure VM conversions (Agent Based)				✓
Microsoft	SQL Server	Interact with MS SQL Server, performing queries and loading data	✓	✓		✓
Oracle	Oracle DB	Interact with Oracle DB Servers, performing queries and loading data	✓	✓		✓
Microsoft	Active Directory	Sync Computer and User details to TransitionManager	✓	✓		
Google	Stratozone	Google cloud preferred Discovery and Cost analytics tools for data center workloads	✓	✓		
Amazon AWS	CFT - CloudFormation Templates	Update and trigger AWS Cloudformation Stacks				✓
Carbonite	CloudMigrate	Migrate VMware and Physical (Windows and Linux) workloads to vCenter				✓
SendGrid	SendGrid	Send Emails via Actions and Templates using SendGrid				✓
VMware	HCX	Migrate workloads via HCX with RAV or Bulk migrations to all VMware targets				✓
VMware	Cross vCenter vMotion	Fully automated storage vMotion migration workflows				✓
VMware	Storage vMotion	Migrate VM storage between datastores				✓
Zerto	Zerto Migration Backup & Recovery	Create VPGs, orchestrate migrations and disaster recovery of protected workloads				✓
Veeam	Migration	Create Veeam data protection jobs for VMware virtual machines				✓
BMC	Helix CMDB	CMDB Asset Inventory and Relationships	✓	✓		
HPE	HP Operations Orchestration (HPOO)	Initiate operations workflows				✓
